RUSSIANS MAKE **OVER PORT ARTHUR**

saved Every Morning Except sunday Immense Shops, for the Naval Station Being Built There.

> Mr. Sifroy Fortin, who was for sev eral years resident engineer in charge of the work of Milliken Brothers, whe built many of the large sugar mills in the islands, accompanied by Mrs. Fortin and their child, arrived here in the Coptic yesterday morning and will spend some time looking over the ground to see what are the prospects for new work. Mr. Fortin has been the representative of his company in China for a year past, and is now immediately from Port Arthur. Speaking of China he said last evening:

"There is a period of depression in China, and some persons who have been in the south say that it will be yet 8:15 5:10 some time before China is ready for the advance that is anticipated. The American corporation which has a concession for the building of a railroad from Hankow to Canton, of which Willis C. Gray is the president, is going ahead, it is said, with the construction of several hundred miles of the line. W. Porter Boyd is now in Shanghai as the private secretary to Mr. Gray, and seems well pleased with the outlook.

"Our firm has been constructing in Port Arthur immense shops for the Russian government. The intention is said to be that a naval base shall be maintained at Port Arthur, and for four years the Russian government has been preparing the fortifications and Olsa Pl'n 6, p. c. Waialus Ag, Co, 6 p. c. arranging for the shops and the immense drydocks. Kahuku 6 p. c.....

"Port Arthur is the present terminus of the Trans-Siberian railroad, but there has been much talk of the town of Dalny, on Talien Wan bay. That city it is hoped to make the terminus and commercial center of the peninsula, but it is all in the future. We may not be able to get any more contracts in Russia owing to an edict which declared that all iron for Russian work must be made in the country. I have bid on several small contracts but the government would not accept American iron. Our work is not finished as yet owing to the lack of appropriations and so I am on my way back, as there may be a year's wait.

"When completed the shops will be the greatest in the East. Everything is being done right and the prospect is that with money to spend there will be nothing short of perfection in the equipment of the station."
